PROFESSIONAL SUMMARY

Full-Stack Developer and SEO Content Writer with 5+ years of remote client delivery for businesses across the USA and Europe. I build fast, modern web applications with React, Next.js, and Node.js — and write technical and SEO content that ranks and converts. The combination of engineering depth and content expertise means I can own a digital product end-to-end, from architecture to the articles that drive it traffic.

EXPERIENCE

Frontend Web Developer

2024

Ngamia Africa

- ▶ Built responsive web interfaces for internal management systems using React
- ▶ Integrated RESTful APIs and handled full-stack debugging across frontend and backend layers
- ▶ Assisted with DevOps tasks, deployment automation, and CI workflows
- ▶ Owned Git workflow including branching strategy, code reviews, and repository management

Frontend Web Developer

2023

Pullova Technologies

- ▶ Developed production-ready interfaces using ReactJS, HTML5, CSS3, and Bootstrap 4
- ▶ Collaborated via GitHub and deployed applications on Heroku
- ▶ Implemented UI/UX best practices and responsive layouts across desktop and mobile

Freelance Developer & Technical Content Writer

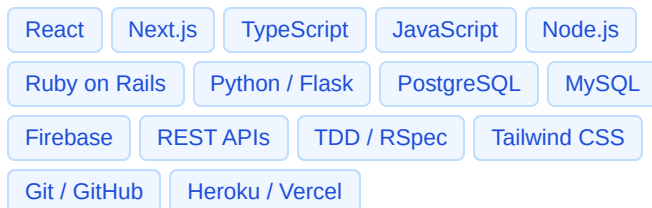

2019 – Present

Upwork & Independent Clients (USA, Europe)

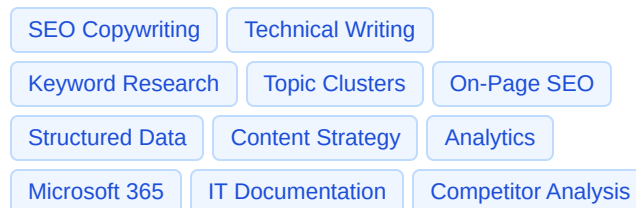

- ▶ 5+ year track record delivering technical content for clients including a 4.5-year Hong Kong engagement worth \$24K+
- ▶ Topics: Windows OS, Microsoft 365, cloud tools, PowerShell, Active Directory, SaaS, eCommerce
- ▶ Full-stack development projects for small businesses and startups across the USA and Europe
- ▶ Built and launched Hydroponics Central — a full Next.js content platform with 1,000+ newsletter subscribers, all content researched and written personally

SKILLS

Development

Content & SEO

PORTFOLIO HIGHLIGHTS

Hydroponics Central hydroponics-central.vercel.app ↗

Full Next.js content platform built, written, and launched solo. 1,000+ newsletter subscribers. Long-form articles averaging 12–15 min read time. Demonstrates end-to-end ownership: architecture, deployment, SEO strategy, and all content.

Ngamia Africa — Internal Management System

Production-grade internal web platform: React interfaces, REST API integration, DevOps support, and full Git workflow ownership.

Upwork — Technical Content (5+ years)

Long-term engagements across US and European clients. Topics include Windows OS, Microsoft 365, cloud infrastructure, and Active Directory. 5-star rated across all contracts.

TRAINING & EDUCATION

Full-Stack Web Development — Microverse (Remote)

1,300+ hours

Intensive curriculum covering Ruby, Ruby on Rails, JavaScript, React, Redux, and SQL. 40 hrs/week remote pair programming with developers across four continents. Mentored junior developers on code quality.
